## MEDICAL FILE

I, undersigned Doctor BEN IMANI ISSA, Medical surgeon, certify that I have examined **Miss RIMOINDZAO SOULAIMANA SOULE** born on 05/26/2020 in MORONI (Ngazidja – Comoros) and currently 2 years old.

The patient is followed for bilateral chronic otorrhea.

The assessment carried out shows

- Bilateral eardrum perforations
- ENT clinical and radiological assessment without other abnormalities (tonsils, nostrils, sinuses and others)
- Examination of appliances: normal
- Normal blood balance
  - o NFS
  - o Blood sugar
  - o Creatinine
  - o Others; VDRL/TPHA, HIV serology, hepatitis serology
- Up-to date vaccinations

The patient requires an additional assessment that cannot be carried out on site (MRI imaging, endoscopy)

His condition requires specialized follow-up in an equipped environment outside for the additional diagnostic assessment but also for the recommended therapy (tympanoplasty).

This medical file is established today at the request to serve and assert

What is right
